

22oz copper insulated water bottles

Short description:	22oz copper insulated custom water bottles
Long description:	Personalised water bottles don't get much more practical than this. With a 650ml capacity and copper-plated inner wall, they keep drinks hot for up to 12 hours and cold for up to 48 hours – perfect for days out or taking to the office. Made from high-quality stainless steel with a durable, scratch-resistant powder coating to prevent condensation from forming, each custom water bottle benefits from a leakproof screw-on lid – so you don't have to worry about your stuff getting soggy. The wide opening is great for ice cubes, too. Our reusable water bottles come in six different colours, including black, white, grey, navy, red and lime. We use a 360-degree digital printing method to ensure your design wraps all the way around the water bottle for maximum impact.
